

A banner image featuring a concert guitar in the center, with musical notation on the right and a dark background with a subtle forest scene. The text "Concert Guitar Antonio Aparicio" is overlaid in white.

Concert Guitar Antonio Aparicio

Thank you for choosing an Xsample instrument!

Features

- easy and comfortably playable instruments
- „all in one“ instruments (all playing styles clearly in one instrument)
- fully chromatically sampled and multilayer
- natural and vivid loops for all sustained notes
- seamless dynamics and timbre by xfades: continuous sound from ppp to fff
- Stereo and mono version (switchable in the instrument)
- Room Walker script for effects within a virtual two-dimensional space
- 61 IR Samples (room impulses)
- A variety of modulators

Software requirements

- Full version of Native Instruments Kontakt (Version 5.5 or higher)
With the free Kontakt Player version, the library can only be operated in demo mode for 15 minutes.

- 40 Finger - Nail - Sul Pont MW Switch
- 41 Finger Variation
- 42 Finger Variation MW Damp RT
- 43 Natural Harmonics Sul D dropped - MW release -

If you want to know more about the various functions of the patches, please hold your mouse over the respective buttons or menus. The information is then displayed when the "Info Pane" of Kontakt is switched on.

If you want to design your own presets, phrases and room walker setups please download the „extended scripting documentation.pdf“. The document can be found here:
