[Installing Xsample Acoustic Instruments Libraries \(Windows\)](#)

[Installing Xsample Acoustic Instruments Libraries \(macOS\)](#)

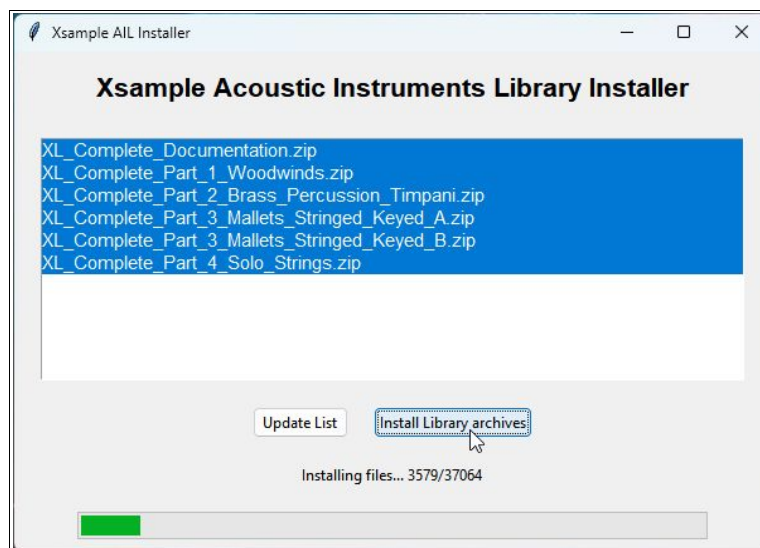

Installing Xsample Acoustic Instruments Libraries (Windows)

First create a installation folder for your Xsample libraries.

Extract the archiv Xsample_AIL_Installer_Windows.zip to the installation folder. Then put all your Xsample library archives to the installation folder.

Double click on Xsample_AIL_Installer.exe *. You should now see a list of all your Xsample library archives. Select the items and press Install Library archives.

After extracting all Xsample AI Library archives the installation is done. No need to add the library since it is not a Kontakt Player Library. The Library is registered at Xsample, no activation at Native Instruments needed. The instrument patches can now be loaded easily with the Kontakt Files browser from the folder Instruments.

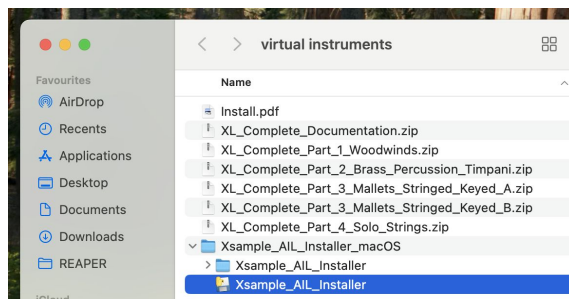

* If you get this:
Windows protected your PC
Microsoft Defender SmartScreen...

Solution:
You can trust the Xsample AIL Installer.
Please click on More info and then click on
Run anyway.

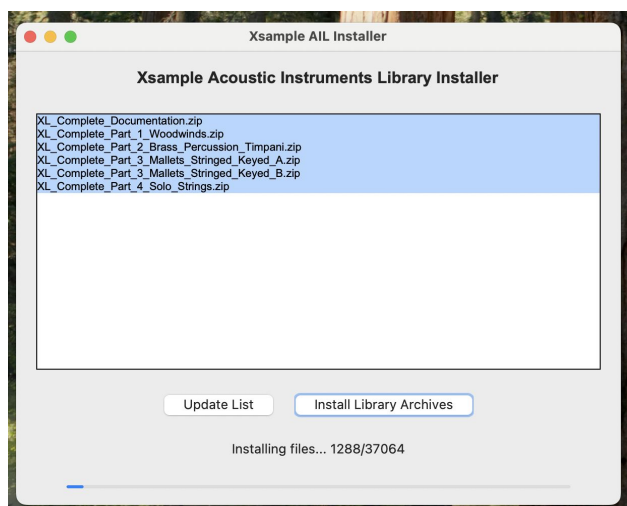

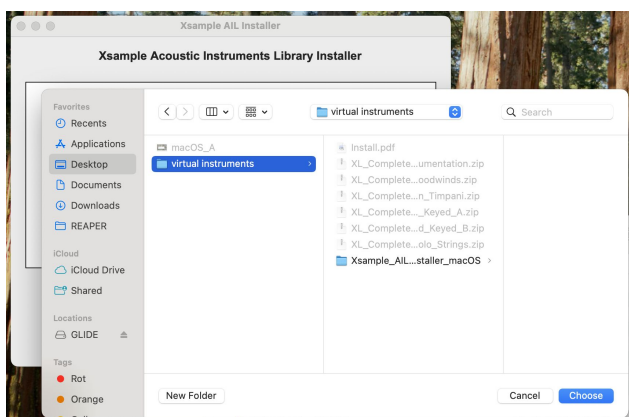

Installing Xsample Acoustic Instruments Libraries (macOS)

First create an installation folder for your Xsample libraries.

Extract the archive Xsample_AIL_Installer_macOS.zip to the installation folder. Then put all your Xsample library archives to the installation folder.

Open the folder Xsample_AIL_Installer_macOS and double click on the app Xsample_AIL_Installer *. A selection dialog for folders pops up. Choose your installation folder. You should now see a list of all your Xsample library archives. Select the items and press Install Library archives.

After extracting all Xsample AI Library archives the installation is done. No need to „add“ the library since it is not a Kontakt Player Library. The Library is registered at Xsample, no activation at Native Instruments needed. The instrument patches can now be loaded easily with the Kontakt Files Browser from the folder „Instruments“.

* If you get this:
Apple could not verify...

Solution:
You can trust the Xsample AIL Installer.
On your Mac, choose Apple menu > System Settings, then click Privacy & Security in the sidebar. (You may need to scroll down.)

- Open Privacy & Security settings > Go to Security, then click Open.
- Click Open Anyway > Enter your login password, then click OK.
